

Prepare for Your CT Scan

We look forward to making your visit as smooth as possible, starting with the following tips to help you get ready for your CT scan. If you have any additional questions ahead of time, give us a call so we can ensure you feel prepared when you arrive.

How to Dress

Wear comfortable, loose clothing that is easy to change out of for the CT scan. Do not wear clothing with any metal piecing (zipper, buttons, etc.). Sports bras are okay. You will be given a gown to wear during the procedure. Avoid wearing metal objects such as jewelry, watches, hair clips or bands, etc.

Avoid Food and Drink

You may be asked to avoid eating or drinking for several hours before the scan. This helps ensure accuracy within your scan. Follow your doctor's instructions to avoid having to reschedule your appointment.

Keep Your Doctor Informed

To ensure the best possible scan and a minimize complications, keep your doctor up to date on the following:

- Bring a list of any medications you are currently taking.
- Let your doctor know about any allergies, recent illnesses, or medical conditions, or if you may be pregnant.

Our goal is to help you get in and out of your appointment as quickly as possible while capturing the highest quality scan, so please arrive prepared. Don't hesitate to contact our staff if you have any further questions.
